CNCF Mentees Meetup 2020

November 25th, 2020

AGENDA

Welcome

Introduction to gRPC - Harsh Thakur + Q&A

Getting into Thanos Ecosystem: My journey as a contributor - Khyati Soneji + Q&A

Break for Water, and Snacks (:

Roadmap to becoming a CNCF mentee - Vineeth Pothulapati + Q&A

Wrap up

Welcome and Intro 🖐️

This Meetup follows CNCF Code of Conduct

Source: <https://events.linuxfoundation.org/about/code-of-conduct/>

- Be tolerant, nice and friendly to others
- Respect others
- Have fun! (:

A little bit of background story ;)

📌 2 | Meeting Notes: <https://docs.google.com/document/d/1Gepl7MzbQEBwyAkcKP6mJ0wbwOsdBau3LGvxPIRIWAM/edit>

Tuesday, June 9th

Harshitha Chowdary Thota 12:48 PM
How about having a guest this Friday? 😊 Maybe we can invite someone for sometime (say 15-20 min) any thoughts or suggestions?

Uche Obasi 12:51 PM
Lol...had same thought as well 😊
That's a great idea @harshitha_t

Harshitha Chowdary Thota 12:52 PM
Awesome 👍

Uche Obasi 12:52 PM
Maybe we could invite Bartek, Povilas, Lucas, or any of the mentors during the calls 😊

Harshitha Chowdary Thota 12:53 PM
Exactly I was thinking the same

Uche Obasi 12:53 PM
We could also invite Khyati (previous Thanos mentee) in one of the calls as well

Harshitha Chowdary Thota 12:53 PM
Yeah you're just reading my mind @Uche 😊

Uche Obasi 12:53 PM
Lol
I think having an external guest during the calls will make the session more insightful and fun
👍 1 😊

Harshitha Chowdary Thota 12:55 PM
How about starting with Bartek? He'd be super excited to see us all together

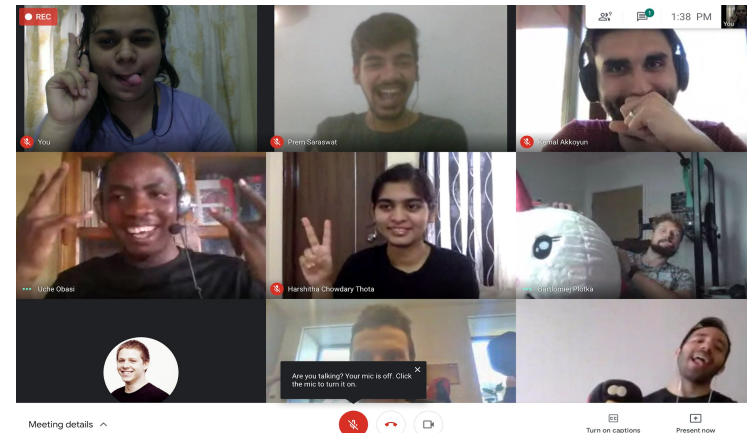

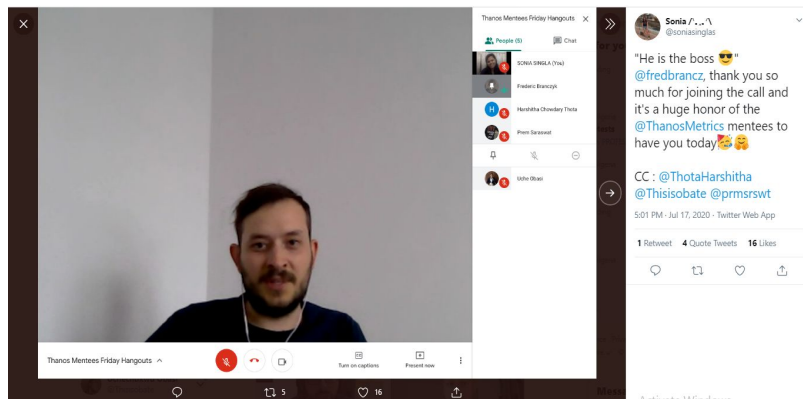

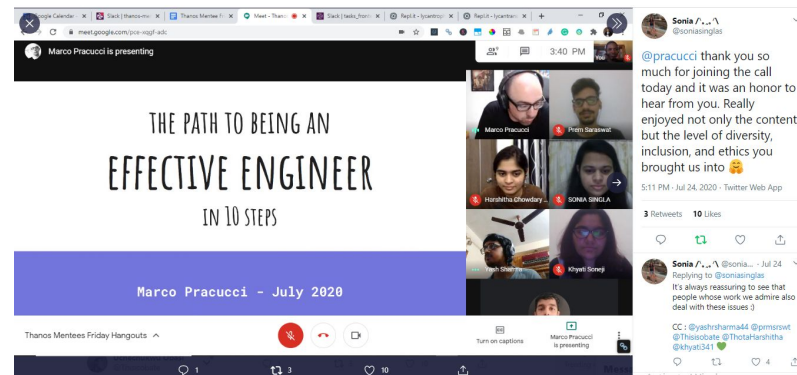

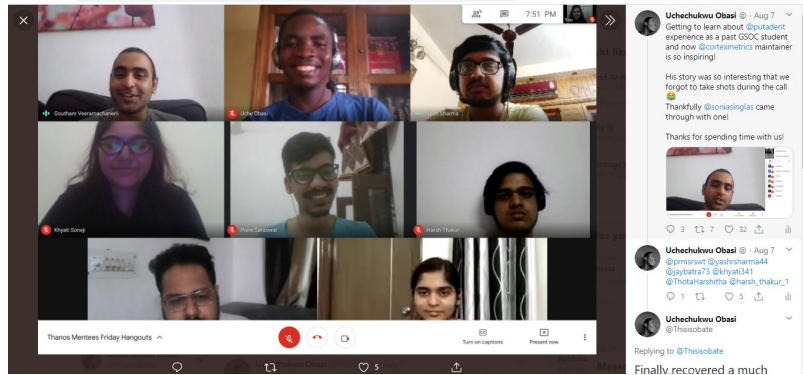

Uche Obasi 12:55 PM
That is just perfect! 🥳 @harshitha_t
@Sonia Singla @Prem Saraswat @Yash Sharma
What y'all think about this new idea? 🤔

Yash Sharma 1:04 PM
Sure, that sounds great! We should add some agenda for the next meeting so that we could use some insights from the experienced campaigners :P
👍 2 😊

Message to thanos-mentees-alumni-network

Thanos Mentees Hangout 🎉

RESULTS

- Meaningful relationship
- Technical proficiency
- Effective communication
- Community building

Meetup Description

CNCF Mentees Meetup is a meetup dedicated to speaking about open source, specifically cloud-native open source projects and practices.

CNCF Mentees Meetup will be a hub for a wide range of open source related topics where mentees can meet, discuss and talk about how we contribute, learn and operate in a cloud-native open source world.

Mission

Provide a safe inclusive space for sharing knowledge and networking around open source and beginner cloud-native topics.

Sharing knowledge on the following topics:

- **Open source cloud-native** projects (**but not necessarily strictly CNCF ones**) like Thanos, Prometheus, Cortex, Loki, Grafana, OpenMetrics, OpenTelemetry, Fluentd, Jaeger, and more.
- Concepts & best practices around software engineering, as well as open source contributions.

Goals

Organize a CNCF mentees meetup.

Provide adequate onboarding exercises for new open source contributors, i.e.mentees, into the CNCF ecosystem by introducing topics around open source contributions, mentorship, cloud-native projects, and software engineering best practices.

Speaker Sessions 🎤

Speaker Sessions 📻

Q&A:

1. Raise a hand if you want to ask question, we will allow you to speak up! (We prioritize those)
2. Put question in Q&A
3. Copy your question to #cncf-mentees-meetup (Slack channel)

Introduction to gRPC

Harsh Thakur

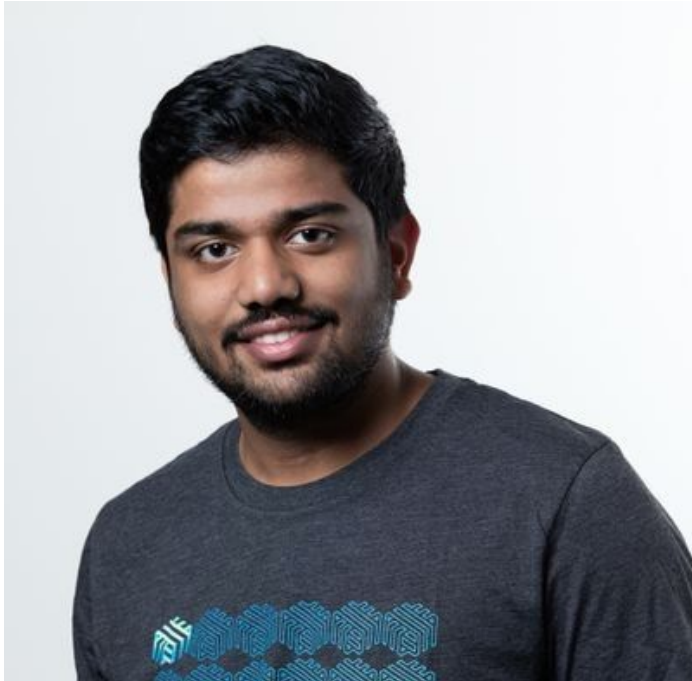

Getting into Thanos Ecosystem: My journey as a contributor

Khyati Soneji

10 minutes of break time!

Roadmap to becoming a CNCF mentee

Vineeth Pothulapati

Wrap Up! 🙌

Next steps

- Call for volunteers
- Join [#cncf-mentees-meetup](#) on CNCF slack
- Call for feedback
- Contact us: cncf-mentees-meetup@googlegroups.com

THANK YOU
