- Questions and Answers

What is October Codefest?

- A month-long virtual event to celebrate open source software development and expand the Cosmos community.
- The event is scheduled from Oct 1st to 31st
- Is open for everyone
- Make at least 1 valid Pull Request
- Win a Cosmos Codefest T-Shirt

How to participate?

- Find eligible repositories from the <u>Blog Post</u>
- Find an Issue that has the Codefest label
- Create a Pull Request with your solution to the Issue
- Now you can fill out the form to receive Swag!

Communities Featuring October Codefest

How to get started?

- Install Git and create a GitHub account.
- 2. Look at the featured projects to find the GitHub issue that you want to work on.
- 3. Comment on the Issue you start working on.
- 4. **Set up email notifications** for the repository.
- 5. Create the **Pull Request** with your solution.
- 6. Monitor the PR and your email notifications to stay engaged with a project.

Did someone say swag?
